

Merging our physical and digital reality to achieve better outcomes.

TranswesternHub is a transformative occupant experience platform using state-of-the-art integrative technology to foster connectivity, transparency and comfort. Powered by Cohesion, TranswesternHub is flexible and customizable, addressing each asset’s unique footprint and tenant base while delivering timely, relevant information to owners and building management. The platform is available as an amenity across Transwestern’s managed portfolio of properties.

Good ideas put into practice. That’s thinking beyond the obvious.

TENANT EXPERIENCE & OPERATIONS

A suite of services customized to achieve the greatest impact.
